CUT RIFA SALSABIL

SOFTWARE ENGINEER

https://github.com/CutRifa | +6282347323787 | cutrifasalsabil@gmail.com | Banda Aceh, Aceh

PROFILE

Cum Laude Informatics Engineering graduate with hands-on expertise in building end-to-end Machine Learning systems and scalable Cloud architecture. Bangkit Academy Distinction Graduate seeking an entry-level Software Engineer role.

EDUCATION

Bachelor's Degree **Sep 2022 - Aug 2026**

Major in Informatics Engineering, Universitas Malikussaleh
3.83 / 4.00 (Cum Laude Honor Graduate)

PROJECTS

Indonesian Hoax Detection System | Python, Scikit-learn, TF-IDF, SVM, Streamlit

- Built an NLP classification pipeline on 2,900+ news articles, achieving 93.81% accuracy using Naive Bayes & SVM.
- Implemented model explainability and deployed an interactive Streamlit web app with URL scraping.

AI Learning Insight | Python, Scikit-learn, FastAPI, Joblib

- Developed ML classification models for student learning styles and serialized them using Joblib.
- Integrated high-performance FastAPI microservices with Express.js and React architectures.

Career Quest (CaQu) | GCP, JavaScript, Node.js, RESTful API

- Deployed scalable GCP infrastructure and built RESTful APIs to deliver real-time career assessment results.

PROFESSIONAL EXPERIENCE

Machine Learning Cohort - Asah **Aug 2025 - Jan 2026**

- Engineered, trained, and evaluated predictive ML models (Classification & Analytics) using Python and TensorFlow.
- Led ML development for "AI Learning Insight" capstone project in an Agile team, delivering a production-ready solution.

Cloud Computing Cohort - Bangkit Academy **Sep 2024 - Jan 2025**

- Built scalable cloud infrastructure and RESTful APIs on GCP for "Career Quest (CaQu)" capstone project.
- Deployed containerized microservices using Node.js & Docker to ensure high availability and application integration.

PROFESSIONAL SKILLS

- Programming Languages: Python, JavaScript, SQL, PHP, C++, Java
- Developer Tools & Databases: Google Cloud Platform, Docker, Git, GitHub, MySQL, Postman
- Frameworks & Libraries: FastAPI, Streamlit, Node.js, Express.js, React, TensorFlow, Scikit-learn

ADDITIONAL INFORMATION

- **Languages:** Indonesian, English, Korean.
- **Certifications:** Google Cloud Fundamentals: Core Infrastructure, Prepare Data for ML APIs on Google Cloud
